

# PROJECT TESTING PHASE

## Comic Craft

### 1. Testing Overview

The testing phase is the stage where the completed comic is carefully checked before final submission. The purpose is to identify and correct errors in the story, drawings, dialogues, spelling, page order, and overall presentation.

### 2. Testing Activities

| Test Area       | What is Checked                                                         |
|-----------------|-------------------------------------------------------------------------|
| Story Check     | Make sure the story has a clear beginning, middle, and ending.          |
| Character Check | Check that characters look consistent and their roles are clear.        |
| Dialogue Check  | Check speech bubbles, dialogue clarity, and correct placement.          |
| Spelling Check  | Find and correct spelling, grammar, and punctuation errors.             |
| Drawing Check   | Make sure drawings and illustrations are clear and complete.            |
| Layout Check    | Check panel order, page arrangement, captions, and spacing.             |
| Colour Check    | Make sure colours are clear and do not hide important text or drawings. |
| Final Review    | Review the complete comic and correct any remaining problems.           |

### 3. Testing Checklist

- ✓ All pages are in the correct order.
- ✓ The story is easy to understand.
- ✓ Characters and scenes are complete.
- ✓ Speech bubbles are readable and correctly placed.
- ✓ Spelling and grammar are checked.
- ✓ Drawings and colours are clear.
- ✓ There are no missing panels or pages.

### 4. Corrections and Improvements

Any errors found during testing are corrected. Unclear dialogues, missing drawings, spelling mistakes, wrong panel sequences, and layout problems are improved before the final version is prepared.

### 5. Expected Result

After testing, the comic should be complete, clear, readable, attractive, and free from major errors. The final version will be ready for submission or presentation.

### 6. Conclusion

Testing is an important phase of Comic Craft because it helps identify mistakes and improve the final product. A careful final review ensures that the comic meets the project requirements.
