

DEMONSTRATION OF PROPOSED FEATURES

THE COMIC CRAFT FRAMEWORK // PRODUCTION SCRIPT

PANEL I: SCENE PREVIEW (THE CORE REVEAL)

This blueprint details how key product features are unveiled to stakeholders. Rather than static documentation, features are demonstrated as sequential story arcs that showcase tangible value directly within the hands of the end-user.

PANEL II: CORE FEATURE STORYBOARDS

- **Feature 1: The Automated Onboarding Conduit (Panel Arc A):** User encounters a conversational assistant guiding them through technical setup under 60 seconds. *Metric: Reduces drop-off by 35%.*
- **Feature 2: Real-time Metric Telemetry (Panel Arc B):** Live system visualizer updates critical operational analytics dynamically on a high-fidelity dashboard frame.
- **Feature 3: One-click Data Export (Panel Arc C):** Background workers bundle system assets into clean, downloadable text architectures instantly.

PANEL III: EDITORIAL ACCEPANCE RULES

Features must clear the core production gate: High-fidelity runtime execution, zero blocking anomalies, and clear alignment with the core user journey script.
